

www.esmartcode.com

A cloud based system registration plate for one's personal property. Developed by an Irish company, a simple and effective way to label property- a virtual ID.

Source Pro are involved with continuous development and branding of this innovative electronic lost property label set. We have been successful in achieving listings in many high profile international retail outlets.

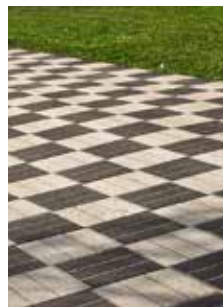

LEPLECO

www.lepleco.com

Lepleco, an Italian company produce a range of wood/polymer composite tiles for indoor and outdoor use. Each tile clicks together; no tools required and can be edged on the sides with tile ramp. Strong and durable, withstands weight of up to 7.5 tonnes per sq metre and supplied in a range of colours to include, grey, brown and brick red. Most installers of decking and related products are moving away from traditional 100% timber to composite materials due to the ease of maintenance and aesthetic properties.

Source Pro succeeded in opening up new channels of supply in Ireland and throughout Europe..

Source Pro

Our experience, your success!

Various confidential assignments on behalf of global producers wishing to expand their presence in European markets and corporate governance assignment work for charitable bodies like www.brigitsgarden.ie have been carried for out by the principal, John Stone.

ABOUT US

Source Pro International was established in August 2015 by John Stone (previously Group Chief Executive/Director of National Hardware Ireland Ltd / Arro Home and Garden Ltd). We offer a range of consultancy services to include:

- Non-executive Director specialising in retail, distribution and not for profit industries.
- Merger and Acquisitions, Joint Ventures.
- Business Plans and Strategy Development.
- Corporate Governance.
- Importing from Far East, new product development, quality control, specifications, logistics- from factory to shelf to customer.
- Franchising, retail store standards, E.P.O.S. systems.
- Personnel Management, appraisals, sales development, KPI's and performance management.
- Retail Operations, space planning, store design and layouts.
- Introducing manufacturers and products to giftware, hardware, garden, builders merchants and DIY stores throughout Ireland and Europe.

RECENT PROJECTS

www.unitedhardware.ie

A joint venture between National Hardware Ireland Ltd and Associated Hardware, Dublin. Operated at Board level to initiate and merge key business elements of the two J.V. partners establishing the new company United Hardware with 150 million Euro turnover. Restructured operations, implemented Shared Services / Shareholder Agreements and developed key stakeholder relationships.

www.bricoalliance.eu

A European retail purchasing group with over 400 D.I.Y, builders' merchants and garden centres. Directed the company in implementing key strategic areas of business with particular emphasis on purchasing for competitive advantage.

www.sugru.com

Launching and introducing www.sugru.com to select DIY and retail stores throughout Ireland. Sugru is a mouldable glue, just stick it, shape it and in 24 hours it bonds like rubber. Endorsed by Time Magazine as #22 of the best inventions for 2010 - the iPad was #34! Initial task for 2017 was to achieve key market presence within the homewares, hardware and crafting sector in Ireland and abroad. Now available in 180 outlets throughout Ireland with retail chains such as Art n Hobby, Allied Builders Merchants Association, ARRO Home and Garden, Expert Hardware, Grafton, Homevalue, Home Project Centre, Topline and Home Store and More.

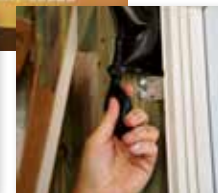

Stick it to your stuff, shape it, and it'll turn into a tough silicone rubber

.....

www.winbag.eu

Introducing and launching the Winbag inflatable shims to the Irish builders merchant stores. A completely new product line, Source Pro International were instrumental in launching various digital displays throughout the Irish merchandising network with several blue-chip retail outlets from the industry stocking and selling the product range.

135Kg construction grade lifting power
